

# Unicorn Sundae

## Ingredients - Serves 4

- Pink coloured drink - such as pink lemonade - 1 cup (250ml)
- Purple coloured drink - try a Welch's grape juice or something similar - 1 cup (250ml)
- Edible glitter
- Unicorn Accessories for decorating
- Multi coloured sprinkles
- Unicorn Cups or Clear Cups

## Method

- 1) Take your drinks and pour them into the moulds
- 2) You can add the edible glitter to some of the drinks at this stage, or save and use it for later
- 3) Place in the freezer for approx. 1 hour until solid
- 4) Once frozen, take them out of the moulds, and pass through the Ice Crunchy Maker until you have coloured crushed ice - do one colour at a time to avoid any mixing at this stage
- 5) Arrange your coloured ice in your included blue bowl - this can be swirled if you wish, to mix your colours
- 6) Add some more edible glitter if you like things extra sparkly!
- 7) Arrange your accessories on your bowl, using the unicorn horn, eyes and multi coloured sprinkles for the finished sundae!

Enjoy!

If you have any spare, you can always add to your sun lolly moulds and create your own ice lollies!
