MAGIC LIGHT

You will need
printer • scissors •
string • sticky tape

Instructions

1. Print out this sheet as many times as you need to make the length of bunting you want.
 2. Colour in the white part of the snowflakes if you want to.
 3. Cut each snowflake out.
 4. Lay the snowflakes face down on a flat surface. Place the string along the top of each snowflake. Leave plenty of string either end for tying up.
 5. Fix the string in place with tape.
- That's it! Hang up your snowflake bunting!

Pip and Posy's snow coaching maze

Chose a path and follow the line with your finger to help Pip and Posy reach Jamila without bumping into Mrs Rhino!

 **Tip**
Use three different coloured crayons or pencils to make it easier to follow the lines to the end.

Make
your own
pop-up
card

You will need
printer • scissors •
glue • card or A4
paper

2.

4.

5.

6.

7.

Instructions

1. Print this sheet. Cut around the characters and the strip.
2. If you have card, cut a piece that is approximately 15cm x 20cm. Fold it in half so it measures 15cm x 10cm. For A4 paper, fold it in half on its long side. Glue together to make it stronger and then fold it in half.
3. Next fold the strip of paper along the dotted lines and lay flat.
4. Glue Pip and Posy to the strip either side of the centre fold. Place glue behind their song sheets, it will be in just the right place.
5. With the card or paper opened flat, place the strip in the centre of the opened card, lining up the centre line with the fold of the card.
6. When you are happy with the position, place glue on one of the tabs, fold back and press on to the card. Once dry do the same for the other tab.
7. Close the card making sure Pip and Posy fold towards you. Open again to make sure it works.
8. Decorate the front of the card, draw a picture or cut out and stick on the snowflakes from this or the other activity sheets.

Tip

You can use up cardboard from an empty cereal box and cover the printed side with paper scraps or paint.

That's it! Your Pop Up Card is ready to send!

Colour in
Christmas
scene

When you have coloured in your picture you can cut it out and display it on your fridge or in your window. ✨

Or cut out some card from an old cereal box or delivery box that is double the size of the picture. Fold in half and glue the picture on the front to make a big Christmas Card! ✨

Tip
Use this picture to match the colours in your picture.

Make and decorate Pip's tree

You will need
printer • scissors • glue

Instructions

1. Print and cut out the tree, following the thin white line.
2. Fold along the dotted line. Place the tree flat, coloured side down. Glue along the glue tab.
3. Roll the other edge over to meet the glue, so that it makes a cone shape. Hold until dry.
4. Cut out the decorations. Glue all over your tree. You can also draw more of your own and add those too! Cut out the star and fit into the top of the tree.

That's it! Your tree is decorated for Christmas!

Tip
For the trunk, pop the finished tree onto an empty loo roll.
